Can a Man Choose His Place of Abode and Where He Shall Pay His Taxes?

Boston, January 7.—A case of great interest to persons residing in the city and making their home during the summer at Nahant and other summer resorts, so now on trial before the Superior Court at Salem. The arguments were finished yesterday, and to-day the case goes to the jury. This case involves the right of domicile, or the right of a man to elect his place of abode and where he will psy his taxes when residing in two or more

OFFICE DAILY INTELLIGENCES, Wednesday, Jan. 7.

The cold weather infused a little more unimation into some departments of trade, but general business is dull, not what it usually is at this particular time, under existing circumstances. The suspension of naviing circumstances. The suspension of navi-gation causes a reduction in stocks of grain and produce, but as yet the supply of leading articles is fally equal to present wants, while values remain about as is

domicile, or the right of a man to elect bried with spiace of abode and where he will pay his place of abode and where he will pay his place of a bode and where he will pay his place of a bode and where he will pay his taxes when residing in two or more town. It seems that Mr. Alanson Tucker, a merchant of Boston, who for many years occupied a house on Beacon street for a large part of each year, claims residence at Nahant, but paid his taxes to the city of Boston under protest, and now sues to recover the amount. The suit is fooked upon by many members of the bar as a test case, and upon it the actual or legal residence of many sojurners at Nahant and other summer watering places hinges.

In opening, the counsel for the plaintiff presented Mr. Tucker's tax bill for \$746, receipted November 9, 1876, and also the following protest: "Both items of this bill are paid under protest, I not having been, on May 1, 1876, a resident of the city of Boston."

PITTEBUROH, PA., January 8.—Figuring up the trade movement here for the past year we find that, notwithstanding the depression that has weighed upon our iron and coal interests ever since 1873, accompanied by strikes, floods and riots, the vitality of these industries has caused a material increase in their volume. The receipts of raw iron for use in the rolling mills here during 1873 foot up to the liberal agregate of 432,711 tons, of which 190,885 tons were pig metal, 193,695 tons ore, and the balance scrap iron and blooms. This represents an increase in the volume of operations of 12° per cent out the total of 1876, and over 5 per cent over 1875. Only two years in the history of the iron trade show a larger volume of operations, namely, 1873 and 1874. On the other hand, the volume of coal shipments down the Ohio river is the largest ever made in a single year, reaching the immense aggregate of 56,935,500 beshels—11,300,000 bushels more than in 1876, and 4,900,000 more than in 1876, which latter year's shipments were the largest heretofore known. Pitaburghers should offset the effect of the numerous sharkengicles which form the dark side of the business aspect. 

MILCH COWS .- Trade has been fair, sales

MILCH COWS.—Trade has been fair, sales made at \$20.85 per heat at retail.

Prices this week for Beef Cattle ranged as follows: Best Beeves at \$2.50 25; the generally rated first quality \$4 52.64 25; medium or good fair quality \$4 50.450; or medium or good fair quality \$3 50.450; or market this week \_\_\_; extreme range of prices \$3 00.625. Most of the sales were from \$12.0450 per \$ 50; general average of market this week.

Most of the sales were from \$1 20a5 00 per 100 lbt. Of the receipts 705 head came from Ohio, 939 from Virginia, 193 from West Virginia, 197 from Maryland, 00 from North Carolina, 46 from Kentucky, 00 head from Tennessee, and 00 from Pennsyvania—10tal receipts for the week 1990 head, against 1009 head last week, and 2217 head same time last year. Of the offerings 911 head were taken by Baltimore butchers, 150 sold to Washington City dealers, 138 to York county (Pa.) dealers, and 237 head to Eastern speculators—total sales for the week 1634 head, against 967 list week, and 1831 head same time last year.

Swiss—The market has been fairly supplied this week, showing nearly double the number of last week. Trade has been moderately settive, and quotations fully maintained. The quality of the cherings is fully as good as it was last week. At the close the market was firm at our quotations, 534,534,54, few sales being made at the first figure, most of them being recorded at 636% per 1 h net. Receipts this week, 7,965 head, against 4,187 last week, and 10,887 head same time last year.

SHEEP—There is a marked increase in the number of the receipts over last week, but no special activity to notice—in the trade. There has been some little demand on the part of Philadelphia dealers, which might be made a regular business if drovers would pay more streation to the Sheep

on the part of Philadelphia ceasers, which might be made a regular business if drovers would pay more attention to the Sheep trade of this market than they have heretofore done. We quote at 4a5½c, a few choice selling at 6a per 1b gross. Receipts this week 5,988 head, against 355 hast week, and 4,988 head same time hast year.
